Comments and Recommendations

Headquarters Training

(Operations School)

Comments:

1. This element is proposed to replace the former Specialized Training Division, with some realignment, and is included in the Operations School complex for the same reasons stated for the Covert Training element.

2. The proposed T/O was calculated on the basis of the courses assigned. It is anticipated that this element will use a number of the so called "sliding scale", GS-13 through 15, operations personnel who are to be utilized by OTR and placed without reference to title or grade. Positions were provided for the placement of such persons.

Recommendations: None.
